

Description

Five sizes are available in the traditional range of Chelsea towel rails at The Radiator Centre, all of them 'ball-jointed' to achieve that classic, timeless styling.

As with all our traditional bathroom models, the Chelsea range is manufactured from high quality brass tubing and comes available in chrome, brushed nickel and antique brass. These bathroom radiators can also be supplied in 'electric-only' or dual-fuel options with the benefit of a craftily concealed electrical element for utilising during the summer months.
