

Description

A great example of the style and elegance of the Victorian era, the Mercury 3 column cast iron radiator is a perfect choice to compliment most styles of properties. Unlike some of it's predecessors, the Mercury has a consistency of width and depth between the different heights and models, which means that there is a better aesthetic across the range.

Head Office

The Radiator Centre, 7 Holywell Hill, St Albans, AL1 1EU

Tel: 01727 840344

PRODUCT SHEET: MERCURY 3 COLUMN 660MM

Heat Output

Heat output per section: 66.4 Watts / 227 BTUs

Dimensions

Leg section height: 660mm
 Middle section height: 598mm
 Section length: 59mm
 Radiator depth: 101mm
 Bottom inlet to floor: 100mm
 Top inlet to floor: 723mm
 Pipe centres to skirting board: 53mm

Weight

Empty weight leg section: 4.88kg
 Empty weight middle section: 4.25kg

Internal volume

Internal volume section: 0.69 l

Construction materials

Radiator sections: Cast iron
 End caps and reducing bushes: Cast iron
