

Description

For period properties and traditional furnishing styles, the Rococo III cast iron radiator (formerly known as the King) is the perfect heat emitter.

Its scrolled relief patterns and Victorian looks transform the Rococo III from humble radiator to a stunning reproduction centrepiece. Free standing and supplied in sections to meet the required output, the standard finish is an attractive umber grey or black primer, although it can also be painted in numerous colours, such as from the Farrow and Ball range. The hand polished option (pictured) offers to accentuate the detailing—please call for more details and prices of the finishes.

We supply the Rococo III in standard configurations of 3 to 15 sections (275mm - 1175mm) in all three heights. Bespoke lengths can be made (from 15 sections upwards) on request.

Head Office

The Radiator Centre, 7 Holywell Hill, St Albans, AL1 1EU

Tel: 01727 840344

PRODUCT SHEET: ROCOCO III 470MM

Heat Output

Heat output per section: 83 Watts / 283 BTUs

Dimensions

Leg section height: 475mm
 Middle section height: 410mm
 Section length: 78.3mm
 Radiator depth: 256mm
 Bottom inlet to floor: 100mm
 Top inlet to floor: 410mm
 Pipe centres to skirting board: 130mm
