The Orbéo towel warmer by Michel Cinier :

An ideal addition to a PERFECT heating and drying of your towels while reducing the electricity consumption to a minimum. Ideal addition for already heated bathrooms (by a floor or AC).

Orbéo mirror :

- anti-fog as soon as it is switched on,
- stock of 2 rolled-up towels behind the mirror + 2 hooks on the side
- infrared heat & inertia: Olycal stone + mirror spread heat over towels
- white powder-coated steel mounting: very easy to install
- real mirror with beveled edges: you can see yourself perfectly
- 24 Volts: very low voltage, can be used in volume 1.
- IP67 230 V – 24 V transformer supplied
- 50 cm diameter
- very low power consumption: 80 Watts / 55°C surface max.
- on/off button on the side of the appliance & surface temperature limiter/safety device included in the Olycal stone
- MADE IN France, Atelier CINIER, Sète
