

The Radiator Centre

Heat By Design

Bryce Designer Radiator

Description

The Bryce's unique 'textural' effect stands it apart from other radiators, making it look less like a source of heat and more an installation piece.

Created from high-grade extruded aluminium, the patented 'press' process used creates indentations of various widths along the length of the radiator making individual sections merge seamlessly into a single panel. Coupled with the various colour options available, including a fine textured white, the Bryce will work to enhance any dull piece of wall.

Product Specifications

Material	Aluminium
Standard Colours	Fine Textured White
Bespoke Colours	Please call
Delivery	Stock models: 2—3 weeks
Guarantee	10 Years
Outputs	1189—2028 Watts @ Δt 50°C

Head Office

The Radiator Centre, 7 Holywell Hill, St Albans, AL1 1EU

Tel: 01727 840344

St Albans. Brighton. Islington. Clapham. Leamington Spa.
