Planatherm Designer Radiator

Description

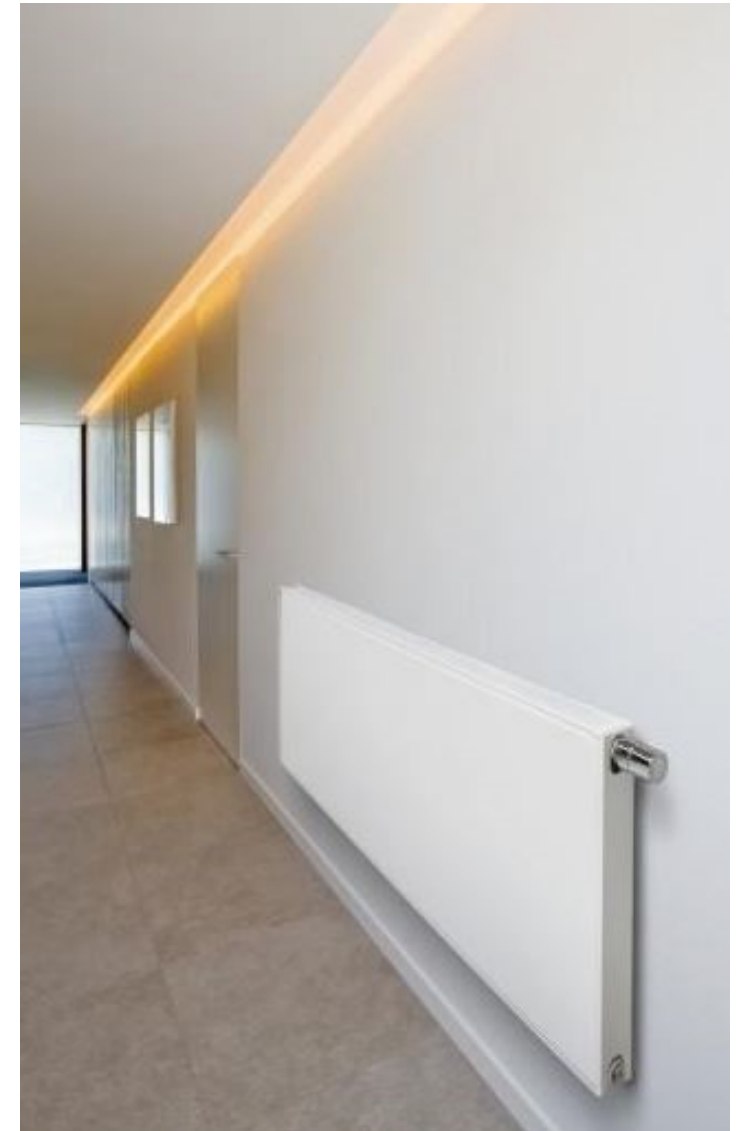

Sometimes achieving something different does not have to cost the earth. The Planatherm takes a standard, every-day convector radiator and, with the introduction of a durable flat panelled front and softer sides, creates a radiator more in keeping with modern living spaces. Its a perfect, cost-effective high specification radiator that will meet the requirements of most rooms.

There is the option of a Single (Type 21) or Double (Type 22), all finished in a durable fine textured RAL9016 white.

The radiator can be connected either by a standard valve set up or with a special combination where the TRV sits at the top right hand side of the radiator. This latter set up requires a special 50mm valve connection.

Product Specifications

Material	Steel
Standard Colours	Fine Textured White
Bespoke Colours	Not Available
Delivery	Some Stock Sizes 2—3 working days
Guarantee	10 Years
Outputs	661—2956 Watts @ Δt 50°C

Head Office

The Radiator Centre, 7 Holywell Hill, St Albans, AL1 1EU

Tel: 01727 840344

St Albans. Brighton. Islington. Clapham. Leamington Spa.
