Heat By Design

Square Tube Vertical Radiator

Description

The Square Tube Vertical is a stunning, sleek looking radiator. Square 25mm x 25mm are used to create a strikingly bold looking radiator which has a heat output to match.

The vertical version comes in two heights (1600mm and 1800mm) and numerous widths. There is also the option of a single version or a double version for extra heat. An optional towel bar, or robe hooks, are available to make the Square Tube Vertical a versatile radiator, suitable for any room.

Available in a standard finish of RAL 9016, as well as a number of other colour and special finishes, this designer radiator will prove a striking alternative to standard radiators. Please contact your nearest Radiator Centre to discuss.

A horizontal version is also available to help extend the range.
