

The Radiator Centre

Heat By Design

Rosy Max Designer Radiator

Description

It might look a bit beefy, but the Rosy Max is designed to produce the heat.

In essence, it is made up of two radiators joined together to form a considerable heat generator. Consequently this radiator adapts well in energy-saving situations, such as on heat pumps and condensing boilers.

Whilst only available in two heights, the Rosy Max does offer numerous lengths in order to get you to the desired heat output. There is also a wide range of colours and finishes to help set this radiator apart from its competitors.

And if the shape of the 50mm x 10mm vertical bars appeal, there is also the Rosy Horizontal and Rosy Vertical to consider.

Product Specifications

Material	Steel
Standard Colours	White RAL 9010
Bespoke Colours	RAL Colours and Special Finishes
Delivery	4—6 weeks
Guarantee	5 Years
Outputs	1368—3307 Watts @ Δt 50°C

Head Office

The Radiator Centre, 7 Holywell Hill, St Albans, AL1 1EU

Tel: 01727 840344

St Albans. Brighton. Islington. Clapham. Leamington Spa.
