

The Radiator Centre

Heat By Design

Column Designer Radiator

Description

This recently launched model is an affordable Aluminium column radiator with great outputs.

The high outputs and slim design makes it a really viable option for those looking for something that can fit into small spaces. There are a number of vertical options as well as some low horizontal options for fitting under windows. With its small bracket the projection is less than you would expect.

Available in a standard white which is a low gloss Matt RAL 9016, there is also an option known as Fronze which is a gunmetal/bronze metallic finish. Colour finishes can be a match to RAL colours and other popular paint companies. Radiators with heights of 400mm, 600mm and 1800mm are available 'from stock' in a White or Fronze finish in 10 - 14 days. All other options including colours will be around 30 working days.

Feet can be added where a load-bearing wall is an issue and there is also a towel rail option for installation in bathrooms or kitchens.

Product Specifications

Material	Aluminium
Standard Colours	RAL9016 White Matt
Bespoke Colours	Fronze & RAL Colours available
Delivery	Stocked sizes 2—3 weeks Made to order 6 weeks
Guarantee	5 Years
Outputs	579—4051 watts @ Δt 50°C
